If you choose to use the above tables to calculate yardage and you have repeated colors throughout to make your quilt, simply add up the total inches for each place the same color shows up and round UP to the nearest 1/8th of a yard. This will assure you have enough to complete the quilt! As an example, JN-C2911 RUST shows up in Bag #7, Bag #1, Bag #2, and Bag #3. To find the total yardage, we did the following:

$$\text{BAG \#3 [(1) 2" strip + (1) 3" strip]} + \text{Bag \#7 [(6) 1-1/2" strips + (6) 2-3/4" strips]} + \text{Bag \#1 [(2) 7" strips + (1) 6-1/4" strip]} = 2" + 3" + 6 * 1-1/2" + 6 * 2-3/4" + 2 * 7" + 6-1/4" = 50-3/4"$$

$$\text{ROUND } 50-3/4" \text{ to the nearest } 1/8\text{th of a Yard} = 54" = 1-1/2 \text{ Yds}$$

## GENERAL CUTTING INFORMATION

**Fabric Width:** The yardage amounts and cutting instructions were calculated to use 42" wide fabrics. If your fabrics are not 42" wide, you may need to recalculate the yardage.

**Cutting Instructions by Bag:** By now, you should have used the Yardage Tables above to pre-cut and sort the fabrics according to bag. Begin the cutting instructions below with Bag #1.

**Keeping the Pieces Organized after Cutting:** After the fabric pieces are cut, clip the templates and fabric pieces together and place them back into the bags with the foundation papers that you took them from.

## CUTTING INSTRUCTIONS, BAG #1:

**Step 1:** Remove the (3) 6" x WOF strips from Bag #1, (2) from #C5, Almond and (1) from #C7, Sepia, along with the *Unit H Template Layout Sheet*.

**Step 2:** Stack the strips, *right-side-up* and sub-cut (4) 6" x 10-1/2" rectangle stacks for a total of (12) rectangles.
