

Step 5: The corners are mitered to complete the OB-Units. Press the seams toward the OB-Units.

The (4) corner pieces are sewn onto the center quilt top. A 3/8" seam allowance should be used to joining the pieces. The wider seam allowance is used to assure all previous basting stitches will be hidden with in the seam allowance. The seams will also press and lay flat with the wider seam allowance. Press the seams away from the accent border.

QUILTING DESIGNS

Quiltworx.com has completed a variety of digitized quilting designs for several of our patterns. A digitized design for the Golden Harvest is available for purchase on our website under Products: Digitized Quilting Designs. It is also linked to the related products on the Pattern page, which you can get to by scanning the code at the bottom of the back page.

Quiltworx.com recommends Hobbs 80/20 batting or similar to get a nice, thin, but flexible finish to the quilt.

DOUBLE EDGED BINDING

Double Folded Straight Edge Binding: From the fabric you selected for the outside binding, cut enough strips at 2-3/4" x 42" wide to go around the perimeter of the Quilt. Seven strips should be enough. The strips are joined together, then pressed in half before sewing them onto the quilt. The joining seams on the strips should be pressed open to prevent the extra bulk when folding the binding over the edge of the quilt. The binding is sewn onto the top-side of the quilt with your machine and hand stitched on the backside.

ALTERNATIVE COLORWAYS AND COLOR PLANNING

Future colorways may be provided, a line drawing to test out your own colors, and a library of quilts that are completed by customers that you can reference for inspiration, so be sure to check out the website! To find these resources, simply visit <http://www.quiltworx.com>. Go to the Pattern Gallery at Products: Patterns, and scroll down to Golden Harvest. Find the "Official Samples" gallery for other colorways. You can get there quickly by scanning the code on the back page of this pattern.

RECLAIMED WEST VERSION (BEIGE/BLUE)

The Beige and Blue option uses the same Color layout (#C1 to #C15 as this pattern, but uses different fabrics for each of the colors. A yardage chart for this option is provided in the table below. Detailed Pre-cutting instructions are provided in the additional tables shown. If you complete the pre-cutting according to these tables, the cutting directions in the pattern beginning on Page 4 will apply to this version of the sample as well.
