Should be
labeled
Right

The Template Layout Paper, TP-81 includes Templates that were labeled incorrectly. If you received one of the first 250 patterns, you will have mislabeled Template Layout Sheets for your E units.

To correct these labeling issues, simply cross out the current references to the word "Left" on each Template Layout Sheet and replace it with "Right". Replace the word "Right" with the word "Left". Do not replace "Right" where it reads "Right Sides Up".
