Place the strips clipped to the Template Layout Sheets back into Bag #2 for now. At the next stage of cutting, you will place half of the cut pieces into Bag #2 and half into Bag #3.

**Color #5 ~ Captain's Wheel ~ Bags #2 and #3:** The wheel in the Captain's Wheel is made from one brown accent fabric from the McKenna Ryan Natural Instinct line meant to mimic wood grain. PN047 20-Natural was selected. This yardage may be replaced by the color of your preference if you are using a different color-way. Sub-cut the fabric as follows:

**Color #5:** Cut (2) 14" x 42" strips from PN047 20-Natural across the width of the grain. Clip these to Captain's Wheel Accent Template CW-2 Template Layout Sheets. There are (4) of them.

**Color #6 ~ Border Sails and Accent Sashing ~ Bags #4, #5, #6, and #7:** The fabric for the border sails was selected to mimic the canvas of a sailboat sail, Natural Instincts PN045 20-Natural. It is also used for the accent sashing to be machine appliquéd around the curved seam between the center of the quilt and the border. Sub-cut the fabric as follows:

### Color #6:

Place the remaining fabric into Bag #7 to use for the Accent Sashing, which will be cut and applied at the end of the pattern.

If you choose to use a variety of colors in the border, it is recommended that you do split the yardage into (4) different colors. When you complete the final cutting process, you will stack all (4) pieces and shuffle the stacks so a different color is on the top of each stack before piecing. In this case, the following yardage is recommended, with each color being cut into (2) 9-1/2" x 42" strips and (1) 6-1/2" x 42" strip. Sort them as directed above.

**Accent Border Colors #1 to #4:** 3/4 Yard each  
**Accent Sashing:** 7/8 yard

**Color #7 ~ Background Fabric ~ Bags #1 to #6:** The background fabric is the 1895 239-Persia. The fabric was selected as the background pieces are large and it allows for a nice quilting space. It also provides the movement of the background fabric selected to mimic a night sky. If you are choosing a different color pallet, try to stick with one background color (or shades of background that

are very close) for maximum color impact. Sub-cut the background fabric across the grain as follows:
